

HOT SALE IN CANCUN

Cancun is one of the most sought after places to invest in a second home. Being so popular, finding an affordable beachfront property is a once in a lifetime opportunity!

Right now there are three beachfront condos available for less than \$140,000 USD in Cancun's northern shore, an area that is being developed with resorts, residential towers, a golf course, shopping malls and plenty of restaurants.

These properties offer great views to Isla Mujeres and the Hotel Zone. They also have great location near Puerto Juarez and Punta Sam, two small neighborhoods with easy access, security, and very

close to the ferry to visit Isla Mujeres, offering a great option for a day trip or a short getaway. These condos are a great opportunity to get a fixer upper on the beach and close to the city, for a great price.
